Dear Hiring Manager,

I am excited to apply for the Software Engineering Intern (Frontend - JavaScript) position at Squarespace. As a final-year Computer Science student at University POLITEHNICA of Bucharest, graduating in July 2025, I am eager to contribute my technical skills and passion for frontend development to your team. Additionally, I will be relocating to Dublin in 2025, which aligns perfectly with this opportunity.

Currently, I am developing my bachelor's thesis, which focuses on creating a web application for managing a hospital using Java Spring Boot for the Backend, React for the Frontend and MySQL as the database.

My experience at Thales DevOps Summer School also strengthened my understanding of containerization, CI/CD pipelines, and Kubernetes, allowing me to build scalable and efficient web applications.

I am enthusiastic about joining a dynamic team where I can further develop my skills in frontend engineering while contributing to impactful projects. I am particularly drawn because of its innovative approach to web development, commitment to modern tech stacks, and collaborative work culture.

I would welcome the opportunity to discuss how my skills and experiences align with this role. Thank you for your time and consideration - I look forward to the possibility of contributing to your team.

Best regards,

**Petrisor - Catalin Stan**
